

Desert Rock Energy Facility - PSD permit application, May 2004

Table of contents for Attachments

Attachments_to_Application.pdf

Attachment_4_Final_Protocol.pdf

page in pdf file

1	Attachment 1	Coal Combustion Technologies
6	Attachment 2	BACT Permit Limit Summary
34	Attachment 3	Performance Data And Emissions Calculations
(N. A.)	Attachment 4	Modeling Protocol - Separate File
71	Attachment 5	Compact Disks (CD) And Modeling Archive To Be Provided Under Separate Cover
72	Attachment 5	Tabulated Air Quality Modeling Results for 2001-2003
		- Class II Near-Field Source Alone Modeling Results 2001-2003
		- Class II Near-Field NAAQS and PSD Cumulative Modeling Results 2001-2003
		- Screening Concentration Results for Soil and Vegetation for 2001-2003
		- Distant Class II Areas Source Alone Modeling Results for 2001-2003
		- STEAG: Desert Rock Energy Facility Total Nitrogen and Sulfur Deposition Source Alone Modeling Results
		- Distant Class II Areas Cumulative PSD Modeling Results for 2001-2003 (for special SO2 Class I designated areas in Colorado)
		- STEAG: Desert Rock Energy Facility SO2 PSD Distant Class II Area Cumulative Modeling Results
		- Class I Areas Source Alone Modeling Results for 2001-2003
		- STEAG: Desert Rock Energy Facility Regional Haze FLAG without Refinements Source Alone Modeling Results
		- STEAG: Desert Rock Energy Facility Regional Haze FLAG with Preliminary Refinements
		- Class I Areas Cumulative PSD Modeling Results for 2001-2003
112	Attachment 6	Cumulative Modeling Inventory Documentation
146	Attachment 7	Refinements To Flag For Determining Regional Haze Impacts
195	Attachment 8	Endangered Species Act Compliance
206	Attachment 9	National Historic Preservation Act Compliance

###

Attachment 4 Final Protocol.pdf

appendices, page in pdf file

68	Appendix A	Air Quality And Meteorology Of Northwest New Mexico
	Appendix B	CALPUFF Modeling And Evaluation Using RUC Derived MM5 Data
106	Appendix C	RUC40 And RUC20 Information From The Forecast Systems Laboratory
183	Appendix D	SCREEN3 Modeling Input And Output Files
245	Appendix E	Regional Haze Assessments With Calpuff And Flag: Recent Experiences
270	Appendix F	Contribution Of Salt Particles To Natural Background Light Extinction At PSD Class I Areas
280	Appendix G	Comparison Of CALMET (RUC) Winds Versus Selected Airport Winds
306	Appendix H	Screening Documentation For Analysis Of Acid Neutralizing Capacity Of Lakes
